Pick Six

- A late scratch in any leg of the Pick Six may result in the ticket holder being assigned their alternate selection. If no alternate was selected, the actual betting favorite is assigned as a substitute for the scratched horse.
- A change in racing surface for any leg of the Pick Six that was not made known to the public prior to the start of the first race of the Pick Six sequence may result in an “Win All” situation. All Pick Six tickets will receive the winner of the affected race as the selection for that race.
- In addition, a surface change as depicted above results in the pool for the Pick Six, excluding any carryover, being distributed as a single-priced pool. The carryover from previous day(s) will be carried forward to the next racing day.
- Winning tickets with six correct selections will share in 80% of the daily net pool, and 100% of the carryover. 20% of the daily net pool will be paid to consolation tickets with five or six correct selections.
- If the event there are no tickets with six correct selections, ticket holders who correctly selected the winner in the greatest number of races included in the Pick Six share in 20% of the daily net pool, with the remaining 80% of the net pool carried over to the next racing day.
- Mandatory payout of the entire net pool will occur on the last day of, or a to-be-announced day of, the racing meet. In the event that on such a mandatory payout date no tickets correctly select the winner in each of the Pick Six races, that day’s pool, and any applicable carryover, be paid to ticket holders who correctly selected the winner in the greatest number of races included in the Pick Six.

3x3

- A scratch in any leg of the 3x3 will result in the ticket holder being assigned the next highest numbered horse that isn't already included in the wager, if no higher contestant number is eligible, the search shall then proceed upward from horse number 1 in accordance with [Scratch Rule Method 1 \(ARCI-004-105\(T\)\(7\)\(c\)\(A\)\)](#).
- If a ticket holder selects more than one scratched horse for a single leg of the 3x3, the substitutions shall begin with the lowest scratched horse number in the wager and proceed in order to the highest. Substitutions shall be performed on the basis of single wagers, regardless of whether a ticket was placed as any type of multiple format such as "box" or "wheel."
- If due to a late scratch, the number of betting interests in a race included in the 3x3 is reduced to fewer than three (3) prior to the first leg of the 3x3 becoming official, for the purposes of the 3x3 pool only, such contest shall be declared a “No Contest” and the 3x3 pool shall be subject to a refund, but not the 3x3 carryover pool. The carryover from previous day(s) will be carried forward to the next racing day.
- The winner of any share of the pool also qualifies for all additional tiers that require fewer winning selections. All shares which are not distributed will be combined and the total carryover will be distributed to each share in the same proportion that the amount wagered on the 3x3 are distributed as set forth below.
 - 92.665% will be paid to tickets with nine correct selections in exact position.
 - 5.560% will be paid to tickets with eight correct selections in exact position.
 - 1.413% will be paid to tickets with seven correct selections in exact position.
 - 0.290% will be paid to tickets with six correct selections in exact position.
 - 0.056% will be paid to tickets with five correct selections in exact position.
 - 0.016% will be paid to tickets with range of three or four correct selections in exact position.
- Mandatory payout of the entire net pool will occur on the last day of, or a to-be-announced day of, the racing meet. In the event that on a mandatory payout date no tickets have nine of nine correct selections in the 3x3, that day's major share, and undistributed minor shares, and any applicable carryover, will be paid to ticket holders who have the greatest number of correct selections in the 3x3.
